

JPE Replication Report

2026-07-14

1 Paper Identification

ID	20241048
Author	Hener
Title	Deterrence or Backlash: Arrests and the Dynamics of Domestic Violence
Iteration	1

Some useful information up front:

- [JPE Data and Code Availability Policy](#)
- [Step by step guidance from Data Editor for Authors](#)
- [Template README](#)

2 Summary

In assessing compliance with our [Data and Code Availability Policy](#), our reproducibility team has identified the following issues, which we ask you to address:

1. Data Editor's first point.
2. Data Editor's second point.

3 General

- ☒ Data Availability and Provenance Statements
 - ☒ Statement about Rights - Part 1: Right to use the data (e.g. *did the authors lawfully obtain the data*)
 - ☒ Statement about Rights - Part 2: Right to publish the data (e.g. *are human subjects involved and did permission been granted to publish their data?*)
 - ☐ License for Data (optional, but recommended)
 - ☒ Details on each Data Source
- ☒ Dataset list
- ☒ Computational requirements
 - ☒ Software Requirements
 - ☒ Controlled Randomness (as necessary)
 - ☒ Memory, Runtime, and Storage Requirements
- ☒ Description of programs/code
 - ☐ License for Code (Optional, but recommended)
- ☒ List of tables and programs
- ☐ References (Optional, but recommended)

4 High-level Description of Research Project

This research project...

- ☒ uses observational data.
- ☒ uses *confidential* observational data.
- ☐ uses data generated via experiment or trial by the authors (in field or lab).
 - ☐ For lab experiments: The code to implement the experimental protocol (z-Tree, o-Tree etc) is included in the package.
 - ☐ A PDF copy of IRB approval is contained in the package.
 - ☐ A PDF document outlining the design of the experiment, including information on the selection and eligibility of participants is included.
 - ☐ A PDF copy of the instructions given to participants in both original language and an English translation is included.
- ☐ uses data generated via survey by the authors (in field or online)
 - ☐ The programs used to administer the survey (e.g. qualtrics survey file) are included.
 - ☐ A PDF copy of IRB approval is contained in the package.

- ☐ A PDF of the original questionnaire(s) and information on the selection and eligibility of participants is included.
- ☐ is a simulation study: the data are generated by an algorithm.
- ☐ is a numerical illustration: no data are used but code is used to produce illustrative output (tables, figures)

5 Data description

For any data that cannot be provided as part of the replication package, please provide the following information as part of the README.

{REQUIRED} Please specify how long the data will be preserved in the restricted-access location.

{REQUIRED} Please provide affirmation of support for replication checks. - As per the [JPE policy](#), “In cases where data cannot be published in an openly accessible trusted data repository like the JPE dataverse, authors who have requested an exemption to publish them at the time of first submission must commit to preserving the data and code for a period of no less than five years following the publication of the paper. They should also provide reasonable assistance to requests for clarification and replication.”

{REQUIRED} Please provide a codebook for the data. - The codebook should at a minimum describe the variables obtained from the data source, in a manner that will let others verify that they have obtained a substantially similar dataset if successfully obtaining access to the data.

5.1 Data Sources

file/name	public	private	DOI/URL	Access described	cited readme	cited paper
res_crimes_new2.dta	no	yes	-	no	yes	yes
warks1019_new.dta	no	yes	-	no	yes	yes
caller1017.dta	no	yes	-	no	yes	yes
callh_vars.dta	no	yes	-	no	yes	yes
crimes_201019_new.dta	no	yes	-	no	yes	yes
police_char_dec18.dta	no	yes	-	no	yes	yes
wards_matched_IV.dta	no	yes	-	no	yes	yes
wards_population.dta	yes	no	-	no	yes	yes
ward_housingtype.dta	yes	no	-	no	yes	yes

file/name	public	private	DOI/URL	Access described	cited readme	cited paper
datefile.dta	yes	no	-	no	yes	yes
Analysis_Final_EJ.dta	no	yes	-	yes	yes	yes

5.1.1 res_crimes_new2.dta: West Midlands Police officer-level incident records

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

West Midlands Police. `res_crimes_new2.dta`. Officer-level incident records containing on-scene actions, timestamps, and call grade. The dataset is not provided in the public deposit.

5.1.2 works1019_new.dta: West Midlands Police crime classifications and grid references

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript

☒ in the README:

West Midlands Police. `warks1019_new.dta`. Crime classifications and grid references. The dataset is not provided in the public deposit.

5.1.3 `caller1017.dta`: West Midlands Police caller-status data

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

West Midlands Police. `caller1017.dta`. Caller-status data identifying whether the caller was a victim or a third party. The dataset is not provided in the public deposit.

5.1.4 `callh_vars.dta`: West Midlands Police call-handler attributes

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

West Midlands Police. `callh_vars.dta`. Call-handler attributes, including experience and sex. The dataset is not provided in the public deposit.

5.1.5 `crimes_201019_new.dta`: West Midlands Police crime investigation and charge outcomes

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

West Midlands Police. `crimes_201019_new.dta`. Crime database containing investigation and charge outcomes. The dataset is not provided in the public deposit.

5.1.6 `police_char_dec18.dta`: West Midlands Police officer characteristics

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

West Midlands Police. `police_char_dec18.dta`. Officer characteristics, including age, sex, and experience. The dataset is not provided in the public deposit.

5.1.7 wards_matched_IV.dta: West Midlands Police ward assignments and geolocations

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

West Midlands Police. `wards_matched_IV.dta`. Ward assignments and geolocations. The dataset is not provided in the public deposit.

5.1.8 wards_population.dta: Office for National Statistics ward-level population counts

- ☒ Dataset is provided in public deposit
- ☐ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

Office for National Statistics. `wards_population.dta`. Ward-level population counts. The dataset is provided in the public deposit.

5.1.9 ward_housingtype.dta: NOMIS ward-level dwelling types

- ☒ Dataset is provided in public deposit
- ☐ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

NOMIS. `ward_housingtype.dta`. Dwelling types by ward, including the fraction of dwellings that are flats. The dataset is provided in the public deposit.

5.1.10 datefile.dta: Authors' calendar file

- ☒ Dataset is provided in public deposit
- ☐ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☐ Access conditions are described:
 - No information on access conditions.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

Authors. `datefile.dta`. Calendar file constructed by the authors. The dataset is provided in the public deposit.

5.1.11 Analysis_Final_EJ.dta: British Crime Survey 2005 extract

- ☐ Dataset is provided in public deposit
- ☒ Dataset is PRIVATELY provided (not for publication)
- ☐ DOI or URL is provided
 - No DOI or URL is provided.
- ☒ Access conditions are described:
 - The British Crime Survey 2005 extract requires separate access. The README directs users to the code comment at line 2250 for further information.
- ☐ Data are not cited, but a working paper, article, or other document is cited (not a data citation)
- ☒ Data are cited
 - ☒ in the manuscript
 - ☒ in the README:

British Crime Survey. `Analysis_Final_EJ.dta`. Extract from the 2005 British Crime Survey used for Section 2.1. The dataset is not provided in the public deposit and requires separate access; see the code comment at line 2250.

6 Requirements

- ☒ README is in TXT, MD, or PDF format
- ☒ README is accessible at the root of the package (not inside a folder)
- ☐ Title conforms to guidance (starts with “Data and Code for: Title of Paper” or “Code for: Title of Paper”, is properly capitalized)
- ☐ Authors (with affiliations) are listed in the same order as on the paper

{REQUIRED} Please review the title of the deposit as per our guidelines.

{REQUIRED} Please review authors and affiliations on the deposit. In general, they are the same, and in the same order, as for the manuscript; however, authors can deviate from that order.

6.1 Stated Requirements

{REPLICATOR}: The authors may have specified specific requirements in terms of software, computer hardware, etc. Please list them here. This is **different** from the Computing Environment of the Replicator. You have the option to amend

these with unstated requirements later. If all requirements are listed, check the box “Requirements are complete”.

- ☐ No requirements specified
- ☒ Software Requirements specified as follows:
 - Stata (code was last run with version 18.5) – pkgs, ftools, reghdfe, ranktest, ivreghdfe, estout, moremata, mtefe, reghdfe, ivreghdfe, esttab, eststo, mtefe – the program “0_install_dependencies.do” is called automatically from the master, checks for existing packages, and will install all dependencies locally if needed.
- ☒ Computational Requirements specified as follows:
 - The code was last run in Stata 18.0 MP Parallel Edition, on Intel(R) Xeon(R) Platinum 8360Y CPU with 2.40GHz, 250 GB RAM, on 64-bit Windows Server 2019 Standard Version 1809. 2 GB - 25 GB of storage space needed.
- ☒ Time Requirements specified as follows:
 - 8-24 hours
- ☒ Requirements are complete.

7 Analyzing Data and Code Files

7.1 Potential Personal Identifiable Information (PII)

We found the following instances of potentially personally identifying information. This may be completely legitimate but might be worth checking. *As a reminder, privacy legislation in many countries (e.g. GDPR in EU) prohibits the dissemination of personal identifiable information without prior (and documented) consent of individuals.* If indeed you want to publish such information with your replication package, you should probably have obtained IRB approval for this - please check!

Summary: - Data files with PII indicators: 2 - Variables flagged in data: 2 - Code files with PII references: 3 - PII references in code: 397

7.1.1 Summary of Flagged Files

File Type	File	Variables/References	PII Categories
Data	ward_housingtype.dta		lat
Data	wards_population.dta		name

File Type	File	Variables/References	PII Categories
Code	01_build_sample.do		lon, loc, location, address, lat, name, gender, sex, minute, second, city, coord
Code	02_analysis.do		lon, lat, loc, sex, degree, city, name, house, location, coord, son, gender
Code	0_install_dependencies.do		loc

See [Appendix](#) for detailed listing of all flagged instances.

7.1.2 File Paths Report

Generated on 2026-07-09T11:17:29.413

Warning: Our search on file path types is imperfect and incurs both type 1 and type 2 errors. We aim to strike a reasonable balance between both. The below table is therefore only indicative. Detailed listings can be found in the appendix to this report.

In this table we analyse all files which contain source code (not data and documentation), and we report the grand total of each type of filepath we encountered.

Please check and replace any **windows** filepaths with unix compliant paths, insofar as this is possible in your setup. (Notice that **STATA** allows / to be a filepath separator on a windows platform, hence this is a requirement for *all* **STATA** applications.)

Files Analyzed	Windows Paths	Unix Paths	Mixed Paths	Drive Letters (C:\ etc)
8	0	2	0	0

7.1.3 Duplicate Files Report

We found the following duplicate files:

Filename	Size (MB)	Checksum (MD5)
/__MACOSX/replication_package_public/Rawdata/.05817890c21bade9763fa18f1fb4441d31f91c87c	0.0	05817890c21bade9763fa18f1fb4441d31f91c87c
/__MACOSX/replication_package_public/replication/0bdd7e90288ade9763fa18f1fb4441d31f91c87c	0.0	0bdd7e90288ade9763fa18f1fb4441d31f91c87c
/__MACOSX/replication_package_public/replication/0bdd7e90288ade9763fa18f1fb4441d31f91c87c	0.0	0bdd7e90288ade9763fa18f1fb4441d31f91c87c

Filename	Size (MB)	Checksum (MD5)
/__MACOSX/replication_package_public/replication/bacbf1501db28da96b83980e686bbd8ed5adace	0.0	0.0
/replication_package_public/replication/code/.DS_Store	6.0	df2fbeb1400acda0909a32c1cf6bf492f1121e07

7.1.4 Zero Size Files Report

We did not find any zero sized files.

7.1.5 Large Files Report

We did not find any files larger than 100MB.

7.2 Code description

cloc	github.com/AIDanial/cloc v 2.02 T=0.04 s (142.8 files/s, 119043.1 lines/s)
------	---

Language	files	blank	comment	code
Stata	4	858	121	3125
Markdown	1	16	0	47
SUM:	5	874	121	3172

- ☒ The replication package contains a “main” or “master” file(s) which calls all other auxiliary programs.

NOTE: In-text numbers that reference numbers in tables do not need to be listed.
Only in-text numbers that correspond to no table or figure need to be listed.

7.3 Computing Environment of the Replicator

- Intel Xeon Platinum 8360Y CPU @ 2.40GHz 2.39 GHz, RAM: 250 GB, 64-bit Windows Server 2019 Standard, Version 1809

{REPLICATOR}: Please also list the software you used (specific versions). List only the ones you used, add any not listed in the examples:

- Stata 18.0 MP-Parallel Edition

8 Replication

Example:

- Downloaded code, data and results from third-party replication from dropbox.
- Compared output from the third-party replication with the original results in the manuscript.
- Virtually all outputs were identical, except for a few minor details (see below).

9 Findings

9.1 Data Preparation Code

- 01_build_sample.do ran without error.

9.2 Tables and Figures

- All output looks the same as in the original in the manuscript.
- Minor issue: Kleibergen-Paap Wald F statistics are not reproduced in Table A3.

10 Classification

- ☐ full reproduction
- ☒ full reproduction with minor issues
- ☐ partial reproduction (see above)
- ☐ not able to reproduce most or all of the results (reasons see above)

10.1 Reason for incomplete reproducibility

- ☒ None.
- ☐ Discrepancy in output (either figures or numbers in tables or text differ)
- ☐ Bugs in code that were fixable by the replicator (but should be fixed in the final deposit)
- ☐ Code missing, in particular if it prevented the replicator from completing the reproducibility check
 - ☐ Data preparation code missing should be checked if the code missing seems to be data preparation code
- ☐ Code not functional is more severe than a simple bug: it prevented the replicator from completing the reproducibility check

- ☐ **Software not available to replicator** may happen for a variety of reasons, but in particular (a) when the software is commercial, and the replicator does not have access to a licensed copy, or (b) the software is open-source, but a specific version required to conduct the reproducibility check is not available.
- ☐ **Insufficient time available to replicator** is applicable when (a) running the code would take weeks or more (b) running the code might take less time if sufficient compute resources were to be brought to bear, but no such resources can be accessed in a timely fashion (c) the replication package is very complex, and following all (manual and scripted) steps would take too long.
- ☐ **Data missing** is marked when data *should* be available, but was erroneously not provided, or is not accessible via the procedures described in the replication package
- ☐ **Data not available** is marked when data requires additional access steps, for instance purchase or application procedure.
- ☐ **Missing README** is marked if there is no README to guide the replicator, or the README is not in compliance with JPE requirements

10.2 Potential Personal Identifiable Information (PII)

We found the following instances of potentially personally identifying information. This may be completely legitimate but might be worth checking. *As a reminder, privacy legislation in many countries (e.g. GDPR in EU) prohibits the dissemination of personal identifiable information without prior (and documented) consent of individuals.* If indeed you want to publish such information with your replication package, you should probably have obtained IRB approval for this - please check!

Summary: - Data files with PII indicators: 2 - Variables flagged in data: 2 - Code files with PII references: 3 - PII references in code: 397

10.2.1 Summary of Flagged Files

File Type	File	Variables/References	PII Categories
Data	ward_housingtype.dta		lat
Data	wards_population.dta		name
Code	01_build_sample.do		lon, loc, location, address, lat, name, gender, sex, minute, second, city, coord
Code	02_analysis.do		lon, lat, loc, sex, degree, city, name, house, location, coord, son, gender

File Type	File	Variables/References	PII Categories
Code	0_install_dependencies.do		loc

See [Appendix](#) for detailed listing of all flagged instances.
